Stop discounting Tables - Every discount level loses money

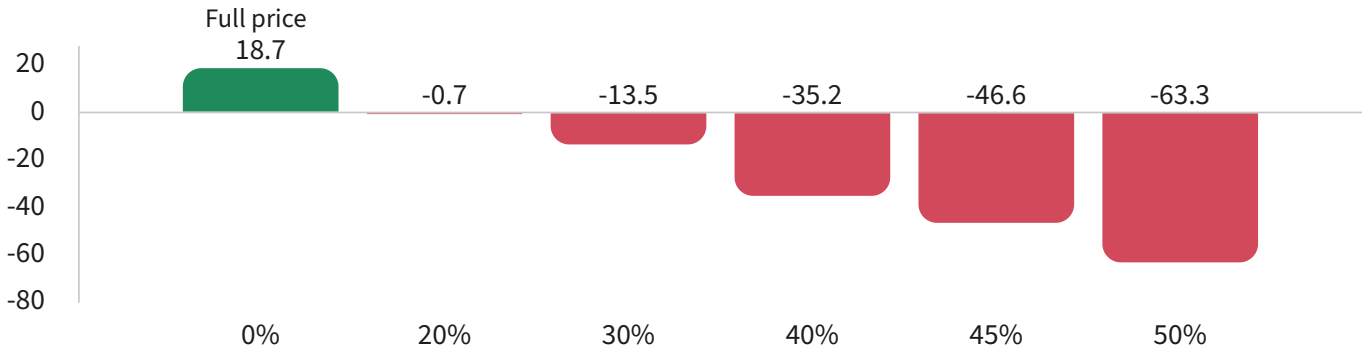
−$29,717
Lost on discounted Tables orders

−$16,937
Net profit, 2022–2025

+18.7%
Margin on full-price orders

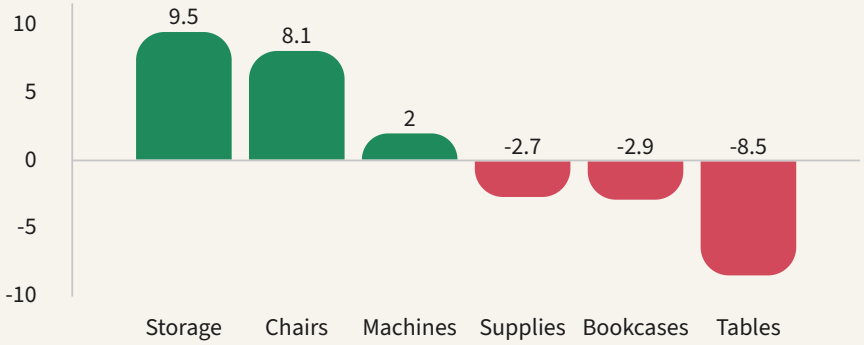
Margin flips negative at the first discount and keeps falling.

Tables profit margin (%) by discount level.



Bookcases and Supplies also lose money.

Lowest-margin subcategories, profit margin (%).



The other 11 subcategories earn between +13.5% and +44.4%.

What to do

1. Set the Tables discount cap at 0%.
2. Review pricing on Bookcases (−2.9%) and Supplies (−2.7%).
3. Re-check Tables margin after one quarter.
